(Neb.)-Chadron Effected By Power Outages UPDATED 6:53 PM

By: Chris Fankhauser Posted at: 07/01/2013 06:10 PM

(Chadron)-Around 5:30 Monday evening, residents of Chadron experienced power outages. It is not known at this time how much of the city is effected, but some areas are currently without power, while others are only at half power. NPPD is working on the situation. As any updates are released, we will pass that along to our listeners. Also, Stereo AM 610 KCSR is off the air. Please stay tuned to chadrad.com for any updates.

At approximately 6:30, some customers in rural areas near Chadron reported losing power as well. That area is serviced by Northwest Rural Public Power District. Some other customers in town who had previously experienced low power reported the power being down at around the same time. The KCSR transmitter had low power, and was being run by a generator. If any more

updates occur, we will pass along that information.

At approximatly 10 minutes before 7, power was restored in Chadron. If anyone continues to have power issues, they can contact NPPD at 1-877-ASK-NPPD.
