

CHARCOAL HOUSE

Production and Packaging Assistant

Production and packaging assistants work in our main office as well as our warehouse preparing and finalizing products before they are shipped. This can include packing and cleaning various sized containers as well as insuring labels are put on accurately and straight, with or without a label machine. Attention to detail is key in this position. You will be dealing with many products that look very similar which cannot be mislabeled or confused for one another.

Production and Packaging Assistant Job Description

- Must pay attention to detail
- Must enjoy and be able to use hands and wrists and stand for extended periods of time
- Must have high attention to detail and accuracy
- Must be able to lift, push, pull and occasionally lift up to 70 lbs.
