**Description**

At the Nebraska Department of Transportation, we reward our employees' hard work with a friendly and supportive work environment that encourages creativity and innovation. We provide training and career development, advancement opportunities, ample paid time off, work-life balance, and a comprehensive benefits package that includes a matching retirement contribution of 156%. Under limited supervision will be responsible for the repair and maintenance of a variety of gasoline and diesel powered equipment and vehicles.

Location: Crawford, 3621 Highway 20

**Examples of Work**

- Perform major engine overhauls using precision tools to completely rebuild gasoline and diesel engines.
- Overhaul transmissions and final drives, perform repairs and diagnostics of hydraulic systems and rewire electrical systems.
- Perform metal fabrications and major repairs on snowplows and trucks that may require extensive welding, including arc welding, wire feed welding and flame cutting equipment.
- Disassemble units, inspect parts for wear, repair, overhaul and replace parts using precision measuring instruments.
- Inspect reassigned equipment to insure that it is safe for operation by field personnel.
- Perform diagnosis and repairs on equipment breakdowns in the field.
- Obtain bids for the parts needed to repair engines.
- Maintain accurate records of time and materials expended.
- Perform preventative maintenance.
- Operate equipment during emergency snow removal operations.

**Qualifications / Requirements**

**REQUIREMENTS:** Practical work experience performing automotive/diesel maintenance and repair, including use of computerized diagnostic instruments and equipment OR Post secondary vocational or technical coursework in automotive/diesel mechanics including instruction in computerized diagnostic equipment and in automotive/diesel mechanical maintenance and repair practices, equipment, and technologies.

**PREFERRED:** A degree in auto/diesel mechanics and experience. Experience in the use of hand tools, testing equipment, and diagnosing and troubleshooting problems. Experience or education in diagnosing malfunctions from verbal descriptions in order to repair equipment in the shop or field. Welding/fabrication experience.

**OTHER:** Must be at least 18 years old and possess a valid driver's license. Must possess a valid Class A Commercial driver's License (CDL) with tanker endorsement or must obtain a CDL within 60 days of hire. Must be able to report to work outside scheduled work hours within 30 minutes under normal driving conditions. Regular and reliable attendance.

**Knowledge, Skills and Abilities**

Ability to operate trucks and loaders. Knowledge of hydraulic and electrical systems and ability to diagnose and repair equipment malfunctions.
